

TASK – 8

Change an Amazon Machine Image (AMI) from private to public in AWS.

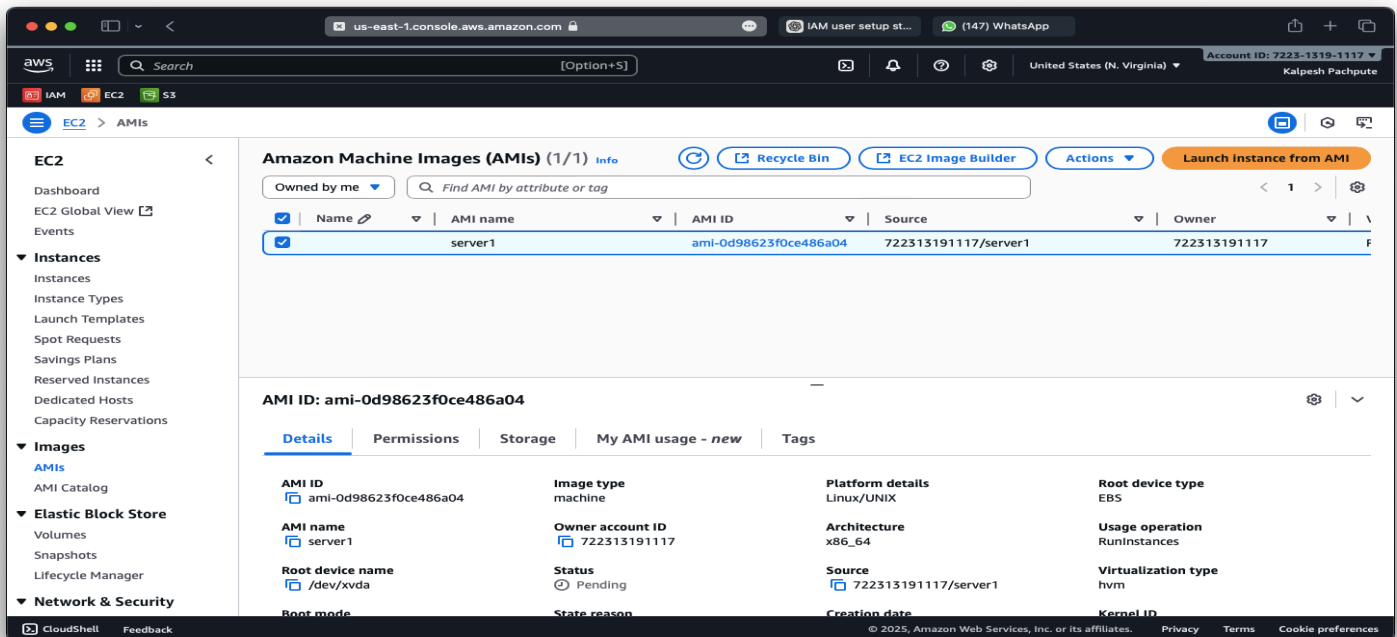

Step 1 — Create an AMI from your instance

1. Go to EC2 → Instances.
2. Select the instance to create an image.
3. Click Actions → Image and templates → Create image.
4. Enter a name and for AMI.
5. Click Create image.

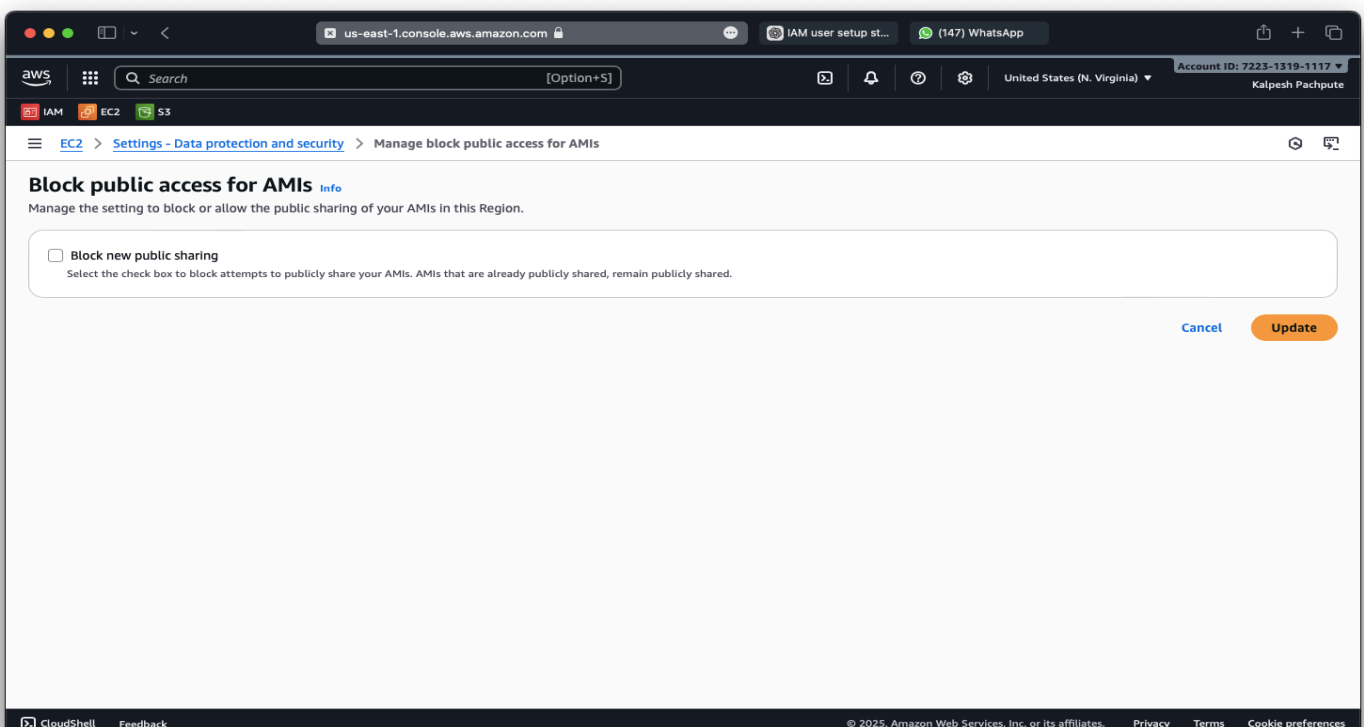

Step 2 – Go to AMIs

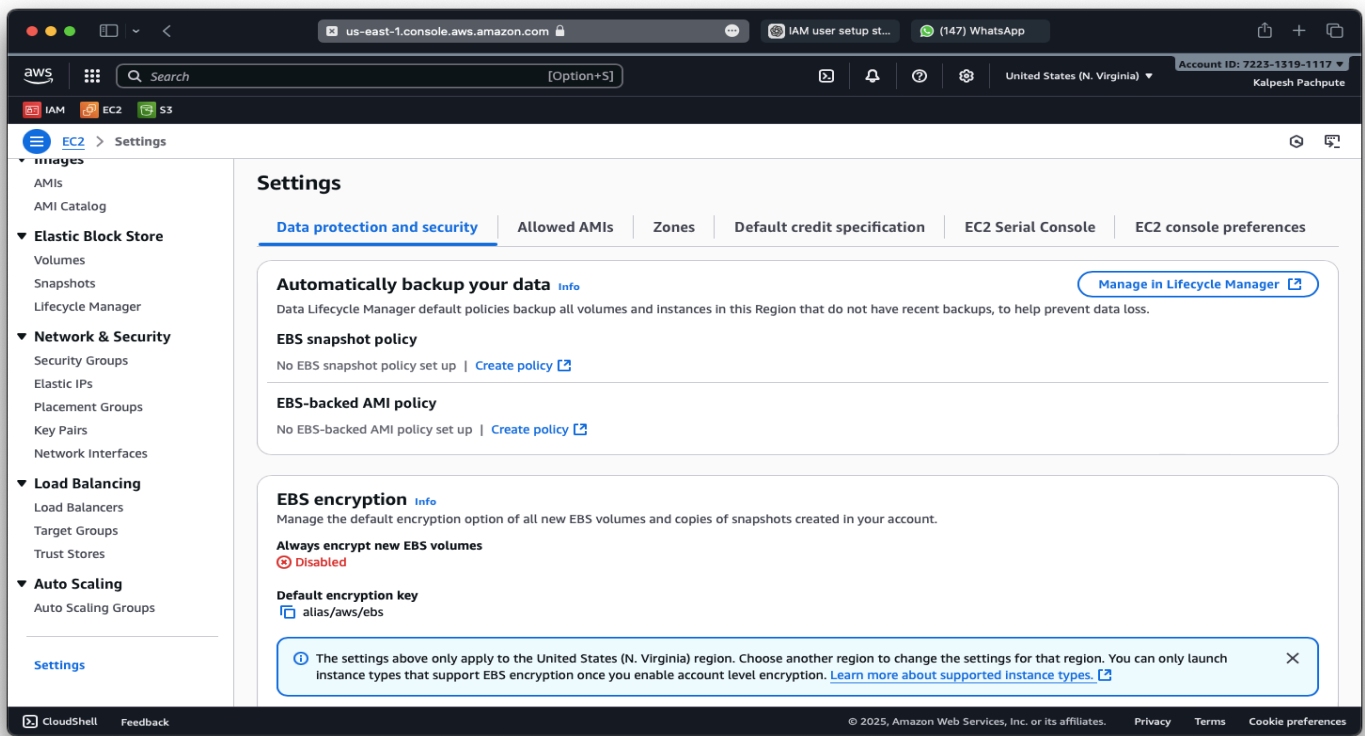

In the EC2 console, click AMIs under Images on the left sidebar.

Step 3 – Disable Block Public Access

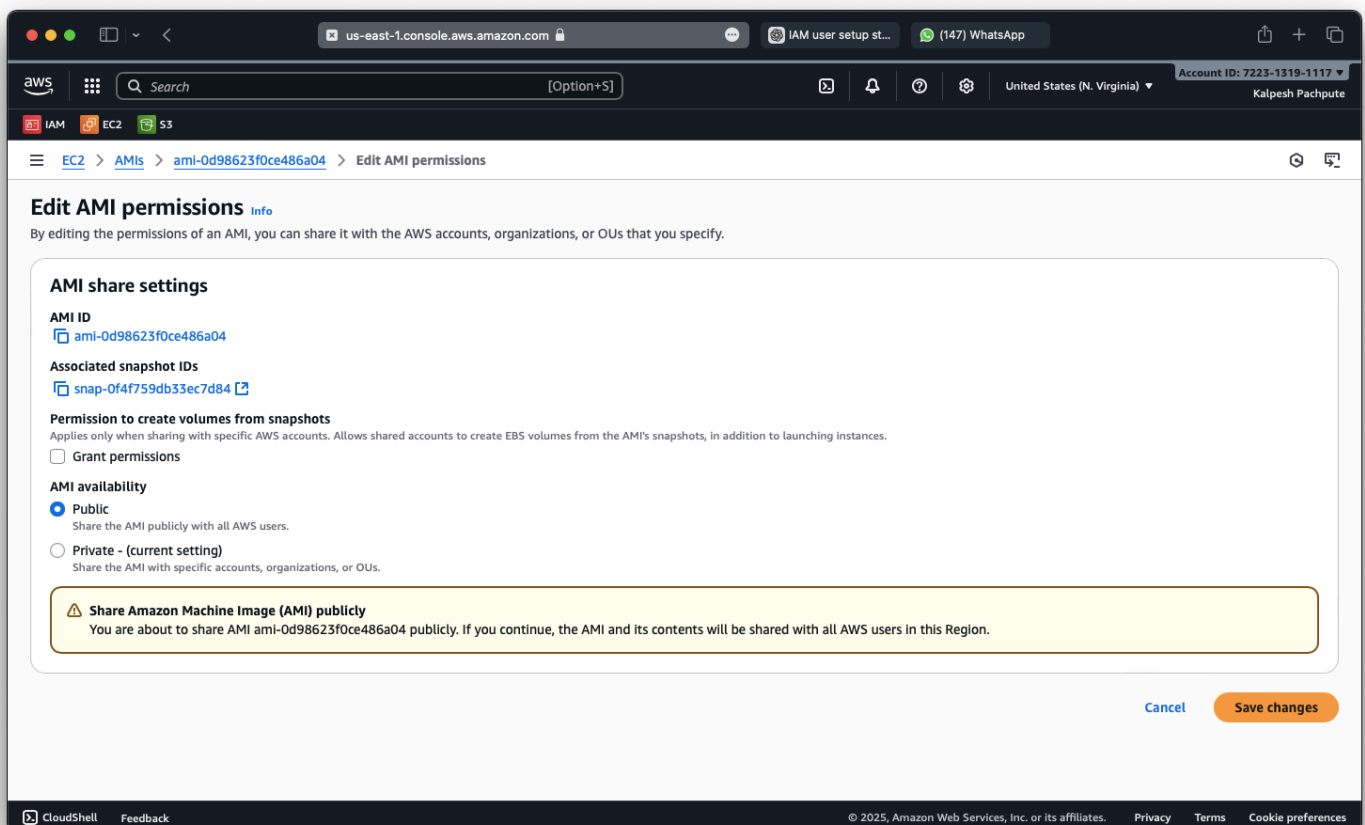

1. Scroll down the left sidebar and click Settings (at the bottom).
2. Go to Data protection and security.
3. Click Manage block public access.
4. Make sure block public access is disabled for AMIs.
5. Save changes.

Step 4 – Make the AMI Public

1. Go to → AMIs.
2. Select your AMI.
3. Click Actions → Edit permissions.
4. Choose Public.
5. Click Save.
